

My Personal Website

I created this website with the use of HTML, CSS, and a small amount of JavaScript to better display my portfolio of projects. In order to create this website I self-taught myself to use these languages through the use of a tutorial.

Here is the beginning part of the HTML code:

```
<!DOCTYPE html>
<html lang="en">
<head>
  <meta charset="UTF-8">
  <meta name="viewport" content="width=device-width, initial-scale=1.0">
  <title>My Portfolio</title>
  <link rel="stylesheet" href="style.css">
  <link rel="stylesheet" href="mediaqueries.css">
</head>
<body>
  <nav id="desktop-nav">
    <div class="logo">Christina Caliangang</div>
    <div>
      <ul class="nav-links">
        <li><a href="#about">About</a></li>
        <li><a href="#experience">Experience</a></li>
        <li><a href="#projects">Projects</a></li>
        <li><a href="#contact">Contact</a></li>
      </ul>
    </div>
  </nav>
  <nav id="hamburger-nav">
    <div class="logo">Christina Caliangang</div>
    <div class="hamburger-menu">
      <div class="hamburger-icon" onclick="toggleMenu()">
        <span></span>
        <span></span>
        <span></span>
      </div>
      <div class="menu-links">
        <li><a href="#about" onclick="toggleMenu()">About</a></li>
```

```
        <li><a href="#experience"
onclick="toggleMenu()">Experience</a></li>
        <li><a href="#projects"
onclick="toggleMenu()">Projects</a></li>
```

Here is the JavaScript code:

```
function toggleMenu() {
    /* Elements targeted */
    const menu = document.querySelector(".menu-links")
    const icon = document.querySelector(".hamburger-icon")
    /* Clicking on the element either opens or closes that class */
    menu.classList.toggle("open")
    icon.classList.toggle("open")
}
```

Here is the beginning of the CSS code:

```
/* GENERAL */

@import
url('https://fonts.googleapis.com/css2?family=Poppins:wght@300;400;500;600
&display=swap');

/* Change margin size */
*{
    margin: 0;
    padding: 0;
}

/* Change the font of website */
body {
    font-family: 'Poppins', sans-serif;
}

/* Scroll down page in smooth manner */
html {
    scroll-behavior: smooth;
}
```

```
p {  
    color: rgb(85, 85, 85);  
}  
  
/* TRANSITION */  
  
/* Transition between styles instantly */  
a,  
.btn {  
    transition: all 300ms ease;  
}
```
